Released April 2009

Exports by Province ◆ 1999-2008

Statistics contained in this report may be revised in future releases.

Revisions:

Statistics Canada revises trade data for the previous three data years with release of the December data. The revision number is indicated in the footer of the tables (e.g., Rev 1 is the first annual revision, etc., and Prelim indicates it is the first release of data to December for that year). In addition to annual revisions, Statistics Canada revises the data for the previous data year every quarter (indicated in the footer by Rev Q1, etc) as well as with the release of the January and February data.

Note that the data has been revised to correct an error in which exports of ethylene glycol from Alberta were mistakenly allocated to British Columbia and some other provinces. As a result of this correction, data released by BC Stats may not match data published by Statistics Canada for years prior to 2002.
